

February 2016

Welcome Dr. Richard Jun!

The doctors and staff of Isthmus Eye Care are pleased to announce the addition of Dr. Richard Jun to our clinical team. Dr. Jun is joining our practice as part of the continued growth of Isthmus Eye Care.

Dr. Jun is a 2006 graduate of the State University of New York (SUNY) College of Optometry. As a specialist in pediatrics and binocular vision disorders, he is proud to continue providing the very best in personalized eye care for Middleton, Madison and the surrounding communities.

We feel fortunate to have Dr. Jun bring his enthusiasm and intellect to our patients and practice. He is looking forward to meeting you and providing exceptional care to you and your families. Please visit our website to [learn more about Dr. Jun](#) and join us in welcoming him to the Isthmus Eye Care family.

Protect Your Eyes from Harmful Light Rays

Throughout the day our eyes are exposed to ultraviolet (UV) and blue light from various sources including sunlight, indoor lighting, and digital screens. The cumulative effect of UV and blue light can cause damage to the eye, leading to cataracts or macular degeneration. As your use of digital devices increases - including computers, TVs, tablets, and smart phones - your exposure to these harmful light rays also increases.

InfantSEE

Good eye health starts young: even babies need eye care. Isthmus Eye Care is part of a major public health initiative for infant vision care, called [InfantSEE](#). To see if your 6-12 month old has vision that is developing normally, make an appointment for a no-charge InfantSEE eye evaluation. After an infant exam your child should then follow up at age three as well as age five or the beginning of kindergarten.

recommend eyeglass lenses with nonglare technology that selectively filters out UV and blue light, thereby protecting your eyes. Please [click here](#) to learn more about the sale we currently have on UV and blue light blocking lenses.

Save The Date: Trunk Sale May 5

Our semi-annual frame trunk sale will be Thursday, May 5th. Plan to join us for this fun-filled event where we feature hundreds of additional designer eyeglass frames for one day only. More details to come!
